

# LEARNINGS & TAKEAWAYS

## How to promote local leadership in civil society support

**April 7<sup>th</sup>, 2-4 pm // Copenhagen**

Denmark has a long tradition of supporting civil society around the world. Through Civil Society in Development (CISU), Disabled People's Organisations Denmark (DPOD), Danish Youth Council (DUF) and Centre for Church based Development (CKU), civil society organizations in all shapes and forms contribute to sustainable development through long-term partnerships, localized interventions and representation of multifaceted groups of people that may not be reached by other organizations.

Together CISU, DPOD, DUF and CKU represent **+400** Danish civil society organizations who work for a better, freer and more just world.

**Join us when CISU, DPOD, DUF and CKU launch findings, best practices and recommendations on how to promote locally led development based on a joint study.**
